**INDEPENDENT AUDITOR'S REPORT**

November 6, 2018

To the President And  
Board Of Trustees  
Fox River Grove Public Library District  
Fox River Grove, Illinois 60021

I have audited the accompanying modified cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fox River Grove Public Library District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting, except for the recognition of real estate taxes that are recorded on a single levy year basis, is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

**Auditor's Responsibility**

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

**Opinions**

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fox River Grove Public Library District, as of June 30, 2018, and the respective changes in modified cash basis financial position, for the year then ended in accordance with the basis of accounting as described in Note 1.

**Basis of Accounting**

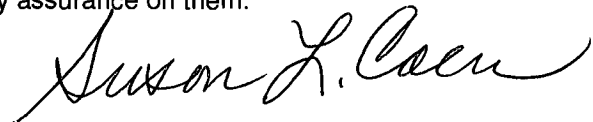

I draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, except for the recognition of real estate taxes that are recorded on a single levy year basis, which is a basis of accounting other than accounting principles generally accepted in the United States of America. My opinion is not modified with respect to that matter.

**Other Matters***Supplementary and Other Information*

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fox River Grove Public Library District's basic financial statements. The accompanying financial information, such as budgetary comparison information and combining and individual non-major fund financial statements and other information such as management's discussion and analysis are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison information presented on page 19 and combining and individual non-major fund financial statements presented on pages 20-21 and schedules of receipts and disbursements-estimated and actual on pages 22-24 are the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the budgetary comparison and combining and individual non-major fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

*Other Information* Management's discussion and analysis on pages 3-6, schedule of funding progress for IMRF page 18, and the real estate tax information on page 25 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**JUNE 30, 2018**

Our discussion and analysis of The Fox River Grove Public Library District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2018, within the limitations of the Library's modified cash basis of accounting. We encourage readers to consider the information presented here in conjunction with the financial statements as a whole.

**REQUIRED FINANCIAL STATEMENTS**

The District has chosen the option to combine the fund financial statements and the government-wide financial statements. These statements appear on page 7-9.

The government-wide financial statements (Statement of Net Position and Statement of Activities) are prepared using the modified cash basis of accounting, which is a basis of accounting other than generally accepted accounting principles. They are designed to provide readers with a broad overview of the Library's finances, in a manner similar to a private-sector business. The Statement of Net Position presents information on all the Library's assets and liabilities with the difference between the two reported as net position. The Statement of Activities presents information how the net position changed during the year.

The fund financial statements tell how the District's services were financed in the short term as well as what remains for future spending. Fund financial statements report the Library's operations in more detail than the government-wide statements by providing information about the Library's three major funds.

The Supplementary Information consists of more detailed data on budget to actual revenues and expenditures. It also includes the schedule of funding progress for IMRF (retirement funds.) Notes to the financial statements provide additional information that is essential to a full understanding of the information provided in the basic financial statements.

**FINANCIAL HIGHLIGHTS**

Net position may serve, over time, as a useful indicator of a government's financial position. The Library's governmental activities net position at June 30, 2018 was \$1,836,089. A substantial portion of the Library's net position represents its investment in capital assets, net of related debt in the amount of \$960,084. The Library uses these assets to provide services and consequently these assets are not available to liquidate liabilities or for other spending.

The Board of Trustees continually monitors performance and adjusts the levy based on prior fund balances and other anticipated situations.

### BUDGETARY HIGHLIGHTS

The Library's General Fund expended \$373,184 which was \$197,596 less than the appropriation of \$570,780. The appropriation sets the maximum spending limits for the fiscal year.

### CAPITAL ASSETS -Following is a summary of capital assets on June 30, 2018:

	Cost or Estimated Cost	Accumulated Depreciation	Net Carrying Amount
Land	\$200,000	\$0	\$200,000
Building	855,487	374,275	481,212

Total	<u>\$1,770,108</u>	<u>\$770,024</u>	<u>\$1,000,084</u>

Books and AV Materials purchased during fiscal 17/18 totaled \$36,957. Major expenses included architect's fees \$23,840, major roof coating costing \$13,373 and the outdoor book return \$5,518. Various items using Friends earmarked donations were purchased under the individual capitalization threshold.

### LONG-TERM DEBT

At June 30, 2018 outstanding long-term debt consisted of \$40,000 in General Obligation Refunding Bonds, Series 2009.

## **DESCRIPTION OF CURRENT OR EXPECTED CONDITIONS**

The Fox River Grove Memorial Library ended the 2017/2018 fiscal year in a mostly healthy financial position. Like many libraries and other governmental units, the Library will face many challenges such as evolving technology and increased costs, without any significant increases in funding. The prudent planning of the past library staff and library boards have provided savings to weather these challenges. The Library has invested unspent funds in a number of CDs. These returns are monitored for potential impact on Library revenue. However, due to the economic climate interest rates are low.

One of the challenges faced by the Library is that the Library's Illinois Municipal Retirement Fund (IMRF) pension plan is underfunded. The Library continues to make timely payments and monitors rate changes, but even large one-time contributions cannot improve this situation.

The Library completed its first Critical Facilities Plan. Using funds from two matured CDs, the Library renovated extensively, including modernizing the elevator, installing new carpet throughout the building, adding an ADA-compliant restroom upstairs, creating a reading lounge for adults, and improving safety in the Youth Services area. A new Critical Facilities Plan looking ahead as far as 2023 addresses remaining interior needs while being mindful of the Capital Improvement Plan Replacement Schedule.

The Library Director is communicating with the County Clerk and attending training sessions whenever possible to become more educated about the TIF expiration, which will have impact on the Library in Tax Year 2021.

The Library Board continues to function well thanks to its excellent members, all of whom are invested and eager learners, taking careful consideration of Library finances and operations.

Policy Manual updates and revisions are ongoing. Thanks to training from Directors' University (by RAILS and the Illinois State Library) and the HR Consulting company Management Association, the Director continues to make many practical changes both in the written content of the policy manual and the physical and digital distribution thereof.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES-MODIFIED CASH BASIS  
FOR THE YEAR ENDED JUNE 30, 2018

Net change in fund balances – total governmental funds	\$7,789
Amounts reported for governmental activities in the statement of net activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the government-wide statement of activities and changes in net position, the costs of those assets are allocated over their estimated useful lives as depreciation expense.	81,137
Depreciation expense on fixed assets is reported in the government-wide statement of activities and changes in net position, but they do not require use of current financial resources. Therefore, depreciation expense is not reported as an expenditure in governmental funds.	(82,181)
The repayment of the principal of long term debt consumes the current financial resources of governmental funds. This transaction, however, has no effect on net position. Refunding Bonds Series 2009 – Principal	<u>75,000</u>
Change in net position of governmental activities	<u>\$81,745</u>

**FOX RIVER GROVE PUBLIC LIBRARY DISTRICT  
MC HENRY COUNTY, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2018**

**1. Summary Of Significant Accounting Policies**

The financial statements reflect the application of significant accounting policies followed by the District, as described in this note. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting principles are described below:

*A. Financial Reporting Entity*

The Library District is governed by an elected Board, who have decision-making authority, the power to designate management, the ability to significantly influence operations and primarily accountable on fiscal matter. The District's reporting entity includes all entities for which the District exercised oversight responsibility as defined by the GASB #14.

*B. Basis Of Presentation* – The government-wide and fund financial statements are combined, with reconciliation between them.

The Governmental Funds Balance Sheet and Statement of Net Position and Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and Statement of Activities combine information about the reporting government as a whole and funds statements to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities.

Major individual governmental funds are reported as separate columns in the fund financial statements.

The General (Library Operating) Fund - This fund is established to account for resources devoted to financing the general services that the District performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the District are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

**FOX RIVER GROVE PUBLIC LIBRARY DISTRICT  
MC HENRY COUNTY, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS (Continued)  
June 30, 2018**

**1. Summary Of Significant Accounting Policies (Continued)**

*B. Basis Of Presentation (Continued)*

Special Revenue Funds - These funds are established to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The special funds include: The FICA Fund, IMRF Fund, Insurance Fund, Audit Fund, and the Special Reserve Fund.

Debt Service Fund – The Bond Fund is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt paid primarily from taxes levied by the District.

*C. Basis Of Accounting* – In the government-wide Statement of Net Position and Statements of Activities governmental activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund balances, revenues and expenditures when they result from cash transactions with a provision for depreciation in the government-wide statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed and provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) *are not recorded* in these financial statements.

If the Library utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

*D. Property Tax Revenue* - Property tax revenues are recognized on a levy year basis. Therefore the real property tax revenues reflected in the statements of revenues, expenditures and changes in fund equity includes only the real estate tax revenue received from the 2016 Levy, which was distributed completely during the fiscal year ended June 30, 2018. Property taxes for 2017 attach as an enforceable lien on January 1, 2017 on properties assessed as of the same date. These taxes are normally due in June and September of the following year. The timing of distributions varies from year to year. Since the 2017 Levy is intended to finance the 18/19 fiscal year the real estate taxes that have been received as early distributions have been reflected as deferred inflow.

MC HENRY COUNTY, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS (Continued)

**1. Summary Of Significant Accounting Policies (Continued)**

*D. Property Tax Revenue (Continued)*

Specifically, the \$265,694 which was received on the 2017 Levy during the year ended June 30, 2018, has been recorded as Unearned Property Taxes (deferred inflow).

*E. Investments* - All investments are carried at cost and investment earnings are recognized when received.

*F. Fixed Assets* - The accounting treatment of fixed assets depends on whether the assets are reported in the government-wide or fund financial statements.

*Government-wide Statements*

In the government-wide financial statements fixed assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation. Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives by type of asset as follows:

Building	40 Yrs.
Building Improvements	40 & 15 Yrs.
Computer Equipment	4 Yrs.
Equipment	10 Yrs.
Furniture & Shelving	10 Yrs.
Books & Audio Visual Materials	5 Yrs.

The minimum capitalization threshold is an item with a total cost greater than \$1,000, except for books and audiovisual materials.

*Fund Financial Statements*

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as a capital outlay expenditure of the governmental fund upon acquisition.

*G. Estimates* – The preparation of financial statements in conformity with U.S. generally accepted accounting principles require management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Equity is classified as net position and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position-Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net positions-All other net position that does not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as required by GASB #54 as restricted, committed, assigned or unassigned. The restricted classification consists of funds that are levied for specific purposes and also the funds that are restricted by a donor (third party). The committed (Special Reserve Fund) balances are constrained using the highest level of decision-making authority i.e. Board of Trustees. The amounts listed as unassigned are amounts available for any purpose.

*I. Budgetary Data-* Accounting Standards Board guidelines require a comparison of budget (appropriation) to actual for all Governmental Fund Types. The term budget used throughout the financial statements represents the estimated revenues and appropriations as set forth in the Library District’s appropriation ordinance adopted on September 19, 2017 for the year ended June 30, 2018.

**2. Special Reserve Fund-** The Board of Trustees has established a special reserve fund which sets apart funds as per Ordinance 2011-3-1 “for the improvement of library services and for the improvement, repair and replacement of the existing facility.” During the year ended no impact fees were collected and therefore the restricted balance of impact fees remains at \$33,785 at June 30, 2018. These impact fees can only be used for the purpose of construction of library sites or facilities.

**3. FICA and IMRF Expenses-** IMRF expense was \$30,372 for the year ended June 30, 2018. The FICA expense for the fiscal year totaled \$17,694. All the District's employees not qualifying for IMRF coverage are considered as "non-participating employees" and are covered under FICA.

**4. Illinois Municipal Retirement Fund** -The following information is provided on a calendar year basis (2017) which differs from the District's fiscal year 6-30-18.

*Plan Description.* The employer's (i.e. FOX RIVER GROVE PUBLIC LIBRARY DISTRICT'S) defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information (RSI). That report may be obtained on-line at [www.imrf.org](http://www.imrf.org).

*Funding Policy.* As set by statute, the District's Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2017 was 17.02% of annual covered payroll. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

*Annual Pension Cost.* The required contribution for calendar year 2017 was \$32,818.

**Three-Year Trend Information for the Regular Plan**

<b>CALENDAR YEAR ENDING</b>	<b>REQUIRED RATE</b>	<b>CONTRIBUTION PAID @ REQUIRED CONTRIBUTION RATE</b>	<b>PERCENTAGE CONTRIBUTED</b>	<b>NET PENSION OBLIGATION</b>

The District had also made additional deposits of \$10,000 in both Fiscal Years Ended June 30, 2015 and 2016, which are not reflected above.

**4. Illinois Municipal Retirement Fund- Annual Pension Cost (Continued)**

The required contribution for 2017 was determined as part of the December 31, 2015 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2015 included (a) 7.50% investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 3.5% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10 % per year depending on age and service, attributable to seniority/merit, and (d) post retirement benefit increases of 3% annually. The actuarial value of the District's Regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. The employer's Regular plan's unfunded actuarial accrued liability at December 31, 2015 is being amortized as a level percentage of projected payroll on an open 26 year basis.

*Funded Status and Funding Progress.* As of December 31, 2017, the most recent actuarial valuation date, the Regular plan was 36.99% funded. The actuarial accrued liability for benefits was \$449,045 and the actuarial value of assets was \$166,105 resulting in an underfunded actuarial accrued liability (UAAL) of \$282,940. The covered payroll for calendar year 2017 (annual payroll of active employees covered by the plan) was \$192,823 and the ratio of the UAAL to the covered payroll was 147%.

The Schedule of Funding Progress, presented as Supplementary Information on page 18, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. The District has disclosed the above information under GASB 50 since it uses a modified-cash basis method of accounting, rather than the reporting under newly issued GASB 68 for modified –accrual method basis.

**5. Commingled Cash On Hand and Deposits and Investments** -The deposits and investments of the Fox River Grove Public Library District are commingled amongst the General Fund, Special Revenue Funds and the Bond Fund. The receipts and disbursements of these funds are tracked and adequate records are maintained to reflect the current fund balances. All Deposits consist of checking, savings and money market accounts and certificates of deposit. Investments are all in the Illinois Funds.

- A. *Custodial Risk* - The Library's deposits consist of deposits (checking, savings, money market accounts and certificates of deposit) at various banks. All deposits are covered by FDIC insurance or covered by a pledge agreement in the District's name. Investments in Illinois Funds (an Illinois investment pool) are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

**5. Commingled Cash On Hand and Deposits and Investments - Continued**

*B. Credit Risk* – The only investments the District has is in Illinois Funds. The funds all have an AAAM rating from Standard and Poors.

*C. Interest Rate Risk* – The risk that changes in interest rates will adversely affect the fair value of an investment. The Illinois Funds Money Market Fund’s investment policy limits its investment portfolio to maturities not to exceed two years with a minimum of 75% to be in authorized investments with less than one-year maturity as a means of limiting its exposure to fair value losses arising from rising interest rates.

**6. General Long –Term Debt** - The outstanding long-term debt at June 30, 2018 consisted of \$40,000 of General Obligation Refunding Bonds, Series 2009. During fiscal year ending June 30, 2018 the District paid \$75,000 in principal and \$2,906 in interest on these bonds.

The details of the amounts due during the fiscal years until maturity are as follows:

Fiscal Year:	Principal Payments Due	Interest Due
6-30-19	\$40,000	\$750

**7. Risk Management** – The Library is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; employees’ health and life; and natural disasters. The Library manages these various risks of loss by purchasing commercial insurance. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

On a market value basis, the actuarial value of assets as of December 31, 2017 is \$218,749. On a market basis, the funded ratio would be 48.71%.

The schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The actuarial value of assets and accrued liability cover active and inactive members who have service credit with the Fox River Grove Public Library District. They do not include amounts for retirees. **The actuarial accrued liability for retirees is 100% funded.**

The District has disclosed the above information under GASB 50 since it uses a modified-cash basis method of accounting.
